**Free bag of 4-5" rainbows (30 fish w/ oxygen bag)**  
**with all rainbow orders over \$250**

### Stocking Guide

The number of fish a pond can support depends on many factors including water temperature, available food, flow of fresh water through the pond, depth, and surface area. Surface area is the best factor to use as an estimate, in addition to the following guide to stocking:

<u>Surface area of pond</u>	<u>Number of fish (5-6 inches and larger)</u>
1/4 acre	50 fish
1/2 acre	100 fish
3/4 acre	125-150 fish
1 acre	150-250 fish
